THE PICS MASTFLEX TRAILER

Supervising the safety and security of large, dynamic construction sites is a big challenge. Road construction, commercial building projects, and residential development each present a unique set of circumstances that can make your efforts a real headache.

Monitoring your workforce, material deliveries, and traffic in and around your site can be full time job, but do you have sufficient personnel in place to handle it?

PiCS raises the bar on RELIABILITY The PiCS MastFlex Trailer was designed to be easy to place, easy to use, and operate practically maintenance free, yet rugged enough to withstand harsh conditions and rough terrain.

- **PLACE** units anywhere around your job site, anytime.
- **WATCH** real-time video from any of your PiCS units from anywhere in the world over a broadband internet connection. Video is sent by wireless transmission to a secure location where it can be recorded as tamper-proof "prosecutable" video.
- **RECOGNIZE** an intrusion.
- **SEND** a human response to a remote event.
- **CONTROL** traffic on your job site with our customizable signage options.
- **SUPERVISE** the site from your office.
- **VERIFY** shipments and workforce attendance.
- **DECREASE** customer visits; they can view the site remotely anytime.
- **CHECK** on subcontractors when they are working.
- **STOP** theft and vandalism.

How do you:

- **PROTECT** a location that is constantly shifting and changing?
- **DEPLOY** a surveillance system in widely varying terrain, from densely populated urban areas to remote stretches of trackless wilderness?
- **VERIFY** construction benchmarks, workforce attendance, and material deliveries?
- **PROVIDE** for the safety of your workforce from criminals and accidents around your site?
- **PREVENT** theft and vandalism, often some of the worst expenses on construction projects?
- **ACCUMULATE** a video record of a project from start to finish?
- **GIVE** owners and investors the ability to check progress and minimize time-consuming visits?
- **PROVIDE** for public safety and traffic control in and around your site?

The PiCS MastFlex Trailer is your answer to all those questions.

PiCS establishes higher benchmarks in FLEXIBILITY The PiCS MastFlex Trailer was designed to be easy to place, easy to use, and operate practically maintenance free, yet rugged enough to withstand harsh conditions and rough terrain.

- **CAMERA SYSTEMS** From high quality TV video to high-definition DVD quality and beyond, customizable cameras let you read license plates and identify individuals at tremendous distances.
- **NIGHT VISION** See crystal-clear video in the dead of night.
- **DIGITAL SIGNS** Fully programmable messages and scheduling.
- **TRAFFIC SIGNS** Control traffic in dangerous areas.
- **WIRELESS PAGING** Alert your security force or law enforcement.
- **WARNING SIREN** Ward off intruders or guide security personnel to critical location.
- **SATELLITE OR CELLULAR PHONE** Make a phone call from a deployed unit.
- **SECURITY LIGHTING** Send intruders running with high-power illumination or provide light for incoming security.
- **FLOTATION TIRES** Take units anywhere, even the most inhospitable terrain.
- **BATTERY CAPACITY AND CHARGING** Wide range of options makes your PiCS units completely self-sustaining.

PiCS sets new standards in SECURITY The PiCS MastFlex Trailer is designed to protect all sensitive equipment from harsh environmental conditions as well as living intruders.

- **ENCRYPTED TRANSMISSION** All transmissions are encrypted to ensure your security and the integrity of your video.
- **TAMPER RESISTANT ENCLOSURE** Locked steel enclosure prevents all unauthorized access.
- **PROTECTED CABLING** Wiring and cabling are contained within steel mast and enclosure.
- **ADJUSTABLE OUTRIGGERS** The unit is stable not only in rough terrain, but can safely withstand up to 100 mph winds, so in hurricane or thunderstorm season, you have one less thing to worry about.

RELIABLE. FLEXIBLE. MOBILE. SECURE.

Speak to one of our representatives today to see how the PiCS MastFlex Trailer can increase your security and reduce your costs.

Magnify Your Manpower.
